All of my friends are very active on social networking sites. I'm sure they can be fun, but they're just not for me. When some of my other friends get together, they don't have any news to share with each other. They already know what the other person has been doing because of social networking! I like to stay in touch with my friends just like everyone else does, but I don't understand why I should be connected to everyone all day long. I like to meet up with my friends in person and go out to the movies, or try out new restaurants. I like taking photos with my friends, too. I just don't really want to be tagged in their photos or have my visit to a restaurant posted on the Internet. It's just not really my thing.

Questions 3–5: Answering questions

Directions: You will hear and answer three questions. For each question, begin answering after you hear a beep. No time is given for preparation. You have 15 seconds to answer Questions 3 and 4, and 30 seconds to respond to Question 5.
